

## The most beautiful couple's dance

Responding to his rhythmic motion,  
She became a dancing flower.  
Her steady gaze draws the lines  
To create a painting,  
Different ones as time passes.  
Dancing around the stage,  
They give to the audience the ice cream cones  
That are delicious and sweet  
One by one, kindly.

When the thick perfume is sprayed,  
The continuous harmony by the free movement and  
The signals from the ring of their inseparable hands  
Create the new paintings in various ways.  
The graceful couple,  
The precious life,  
The night when the splendid blessing is being created.

We all fly,  
Fly with our wings,  
Passing the sun,  
Far away, further away we fly,  
On the ocean in the Milky Way  
We float as their stars.  
The Grand Banquet is full of joy  
By the most beautiful couple's dance,  
By their good heart,  
Unforgettable.
