

Dear SNUCMAA-NA,

First and foremost of all, I would like to thank you for selecting me to be one of the recipients of the 김태웅 scholarship. Knowing that there are many other exceptional Korean American students, I never imagined that I would be chosen as one of the scholars. As a granddaughter of a man who graduated from Seoul University himself, I am extremely honored to be accepting a scholarship from my grandfather's alma mater.

This award means so much to me and holds a special place in my heart, especially because I strive to become a doctor in the future. Being selected for this award proves that there are fellow doctors that believe that I will be able to achieve my dream. I would really like you to know that this scholarship gives me great encouragement. Your support gives me the hope and motivation to continue working hard towards my goals.

I am currently attending UCLA as a college freshman studying Biochemistry in hopes of becoming a doctor someday. I was very worried about the financial burdens that entering college would bring me, but thanks to your generosity, this scholarship will alleviate some of the financial hardships I am facing. I will use this scholarship as an opportunity to push myself to become an even better person that serves her community.

I hope that one day I will be able to support the future young generation of aspiring Korean American students, as SNUCMAA is doing for me, and make a greater impact by giving back to my community.

I would like to personally thank all the alumni's of the Seoul National College of Medicine, the scholarship committee, donors, and finally Mr. 김태웅 for all of their support and generosity. Thank you, and I hope that I will be able to keep in touch and continue to share my journey with you.

Sincerely,

Sarah Yeonsoo Kim
