

Dear Seoul National University College of Medicine Alumni Association,

I am sincerely honored to have been selected as a recipient of the 2021-2022 Seoul National University College of Medicine Alumni Association of North American scholarship. Thank you for your generosity, which will support me in my path towards my higher education.

Currently, I am enjoying my studies, especially in my chemistry courses, and have recently become a member of Citizen Science Health and Diversity with a position on the STEM Outreach committee. I plan on volunteering at the Children's Healthcare of Atlanta while looking at research opportunities throughout the semester. The financial assistance you have provided will be of great help to me in paying my education expenses, and it will allow me to concentrate on my studies and journey towards success.

For my second semester at Emory University, I will without a doubt continue as a more humble, selfless, and persevering student. I look forward to giving back to the greater community in the future, and I truly thank you for your confidence and willingness to help me achieve my goals.

Sincerely,  
Anna Son
