Subject: Letter of Apperication

Good afternoon,

I would like to sincerely thank everyone who has had a hand within the process. To receive this letter and award is an accomplishment which I will hold on to for the rest of my life. What gives me the most support is not the financial gain that comes with this scholarship, but the knowledge that there are people in this world that truly appreciate my work as a student and an athlete and trusts that I will make the correct decisions in the future. This may seem inconsequential to many people but this has given me the confidence to pursue my dreams once more.

I have returned to my studies with renewed vigor and I am approaching challenges with confidence. This award has given me a chance and I am certainly capitalizing on the myriad of doors it has opened up. I am continuing to pursue my dreams as a psychiatrist and my goals of medical school seem much more realistic and exciting. There are many things to be done and many things that I must accomplish to follow my dreams, but I can do them with confidence, knowing that the alumni of the most prestigious university in South Korea has approved of my ability as a student.

Thank you for this award and please look forward to my accomplishments not just as a student, but as a person.
