

Dear SNUCMAA Scholarship Committee,

I am deeply honored to have been selected as a recipient of the SNUCMAA scholarship, and I want to express my sincere gratitude for your generous support. This scholarship played a pivotal role in my residency application process, allowing me to apply broadly to top radiology programs without financial stress. As a fourth-year medical student, the transition to residency is both exciting and demanding, and your support helped make this critical step in my journey possible.

Applying for residency involves significant costs, including application fees, travel expenses for interviews, and other associated costs. Your generosity alleviated much of this burden, giving me the freedom to focus on preparing for interviews and presenting myself in the best light. Because of this scholarship, I was able to pursue opportunities at programs that align with my goals and aspirations. It has been an incredible experience to meet inspiring mentors, learn about different training environments, and take steps toward the career I have been working toward for years.

Next week, on Match Day, I will learn where I will be completing my radiology residency. This moment is the culmination of years of dedication, and I am grateful to have had the support of organizations like SNUCMAA along the way. Regardless of where I match, I am committed to using the opportunities I've been given to grow into the best radiologist I can be—one who not only excels in clinical practice but also serves and uplifts my community. Your support has reinforced my desire to give back, and I look forward to mentoring future students and contributing to the field in meaningful ways.

Beyond the financial assistance, receiving this scholarship has been an affirmation of the hard work and sacrifices that have led me to this point. Knowing that there are individuals and organizations invested in my success motivates me to continue striving for excellence. The impact of this award extends far beyond the application cycle; it is a reminder of the power of community, generosity, and shared commitment to the advancement of medicine.

Thank you once again for your support, encouragement, and belief in my potential. I hope to one day pay forward the generosity I have received and support future medical students in their own journeys. I am truly grateful for this opportunity and excited for the road ahead.

Sincerely,
Seungweon Park
